

# LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Stella Middle Charter Academy

CDS Code: 19 64733 0100669

School Year: 2026-27

LEA contact information:

Angelina Calderon

VP Public Affairs

acalderon@brightstarschools.org

(323) 954 9957

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

## Budget Overview for the 2026-27 School Year

This chart shows the total general purpose revenue Stella Middle Charter Academy expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Stella Middle Charter Academy is \$9,680,899, of which \$6,883,602.00 is Local Control Funding Formula (LCFF), \$2,336,496.00 is other state funds, \$115,000.00 is local funds, and \$345,801.00 is federal funds. Of the \$6,883,602.00 in LCFF Funds, \$1,938,201.00 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Stella Middle Charter Academy plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Stella Middle Charter Academy plans to spend \$9,680,277.00 for the 2026-27 school year. Of that amount, \$9,680,899.00 is tied to actions/services in the LCAP and \$-622 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Per our Charter Authorizer, it is recommended we meet an internal net income reserve each year. We have set that target at 1% of annual expenses

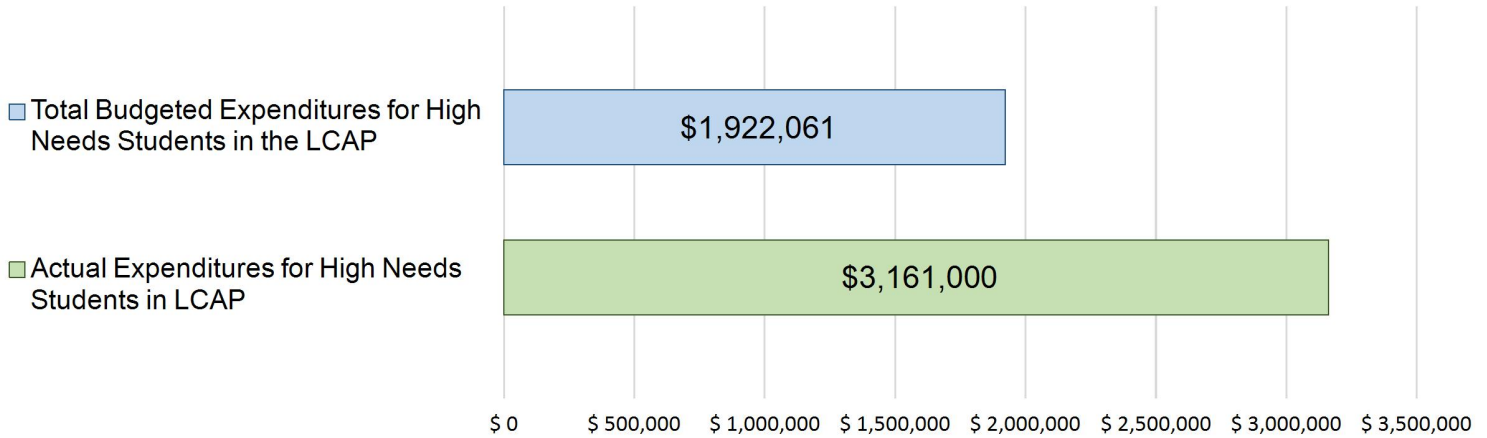

## Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Stella Middle Charter Academy is projecting it will receive \$1,938,201.00 based on the enrollment of Foster Youth, English learner, and low-income students. Stella Middle Charter Academy must describe how it intends to increase or improve services for high needs students in the LCAP. Stella Middle Charter Academy plans to spend \$2,430,000.00 towards meeting this requirement, as described in the LCAP.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2025-26

Prior Year Expenditures: Increased or Improved Services for High Needs Students

This chart compares what Stella Middle Charter Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Stella Middle Charter Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Stella Middle Charter Academy's LCAP budgeted \$1,922,061.00 for planned actions to increase or improve services for high needs students. Stella Middle Charter Academy actually spent \$3,161,000.00 for actions to increase or improve services for high needs students in 2025-26.

# Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

## Plan Summary [2026-27]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Since opening our first school in 2003, Bright Star Schools has been building a high-quality transitional-kindergarten (TK) through 12th grade model for our families in each of our three communities. In nine, tuition-free public schools in three communities -- West Adams, Koreatown, and in the San Fernando Valley -- our 3,000+ students experience rigorous academics, inclusive education, social-emotional support, and rich life opportunities beyond the classroom.

The students at Stella Middle Charter Academy are predominantly from the South Los Angeles community, specifically near West Adams and Baldwin Hills. While the community is culturally rich the neighborhood does not have access to the breadth of resources many more affluent communities do. Additionally, many of our school's families have recently come to the United States, and in many cases English is not the primary language spoken at home. Approximately, 25.2% of our students are English learners, 95.14% of our students qualify for free and reduced priced meals, and 15.98% of our students are students with disabilities. These factors make the school's job of creating an educational program that is centered around the specific needs of the community and filled with experiences and rich educational programming built to ensure student success.

At Bright Star Schools, we are guided by our core values and our highest ideals for our students, staff, and schools. The following are Bright Star Schools' Mission, Vision and Core Values.

Vision: Bright Star students will become leaders who act with integrity and champion equity to enrich our communities and the world.

Mission: At Bright Star Schools, our mission is to provide holistic, inclusive support for all students to achieve academic excellence and grow their unique talents so that they find joy and fulfillment in higher education, career, and life.

#### Core Values:

- Integridad - means we need to be the best versions of ourselves, to speak our own truth, and to advocate for those whose voices are not heard.
- Ubuntu - means that our humanity is shared, that we value kindness, and that we support one another to become the people we strive to be.
- Kohyang - means hometown and encourages us to build meaningful connections and strong community ties, because our hometowns are integral to our identities.
- Growth - means having a mindset that allows us to achieve excellence and gain fulfillment through our pursuit of learning and development

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

As we reflect on our annual performance, Bright Star Schools remains committed to evaluating our progress using data from the California School Dashboard and local assessments. Over the past year, we have celebrated notable achievements and acknowledge ongoing challenges and remain dedicated to refining our strategies to ensure equitable opportunities for all students. Based on the 2025 CA School Dashboard, our strengths and growth areas are as follows:

- Improving English Learner Progress: 56.0% of our English Learners made progress (Green) toward English proficiency, an increase of 5.5 points. Our Long-Term English Learners achieved a Blue performance level by increasing 24.1% to 74.1% making progress.
- Accelerated ELA Growth Across Student Groups: English Language Arts growth was strong overall, with 72.9% of students improving their scores from the prior year, resulting in an Accelerated growth designation for All Students. Growth was distributed across multiple performance levels among student groups, including three student groups achieving Average growth (English Learners, Hispanic, and Students with Disabilities), two student groups achieving Accelerated growth (Long-Term English Learners with 75% growth, and Socioeconomically Disadvantaged students with 72.7% growth), and one student group achieving Exceptional growth (African Americans with 79.7% growth). This distribution reflects a broad base of improvement, with the majority of student groups demonstrating meaningful gains and several groups showing accelerated or exceptional progress in ELA.
- Suspension Rate and School Climate: The Suspension Rate Indicator is Yellow for All Students at 0.8%, increasing 0.6 percentage points from the prior year, indicating a slight increase in suspensions while still maintaining below 1%, well below the 2.9% state average. Several student groups demonstrated strong outcomes, including English Learners (0.0%, Blue, maintained 0.0%) and Long-Term English Learners (0.0%, Blue, maintained 0.0%), as well as Hispanic students (0.5%, Green, increased 0.3%), all reflecting low suspension rates. Additional groups, including Socioeconomically Disadvantaged students (0.9%, Yellow, increased 0.6%) and Students with Disabilities (1.3%, Yellow, increased 1.3%), indicate opportunities to continue strengthening supports to maintain low rates across all students.

We are very encouraged by the significant growth we've seen over the past year, as shown by our performance on the CA School Dashboard, however, we acknowledge the challenges we still face and the current opportunities for growth.

- Increase in Suspension Rates for African American Students: African American students had a suspension rate of 2.3% (Orange), increasing 2.3 percentage points from the prior year. While our students saw an increase from the prior year, we still maintain well below the state average of 7.7%.
- Opportunity to Transform Our Attendance Culture: Our Chronic Absenteeism increased 4.8 points to 21.9% (Red). All six reportable student groups received Red. We recognize this as our most pressing growth opportunity and are committed to developing a comprehensive attendance improvement strategy.
- Opportunity to Strengthen Academic Proficiency: Our ELA declined 6.0 points to 26.6 below standard (Orange), and our Mathematics declined 10.2 points to 87.9 below standard (Orange). We recognize that while our students are growing at an Accelerated pace in ELA, we need to ensure that our instructional improvements translate into proficiency gains.

Student group performance reflects similar trends across groups. African American students (12.0 points below standard, Yellow, increased 6.8 points) demonstrated improvement and are performing at a higher level relative to other groups. However, several student groups remain below standard and declined, including English Learners (58.3 points below standard, Orange, declined 6.8 points), Hispanic students (27.8 points below standard, Orange, declined 8.0 points), and Socioeconomically Disadvantaged students (28.4 points below standard, Orange, declined 6.4 points). In addition, Long-Term English Learners (70.1 points below standard, Red, maintained 1.0 point) and Students with Disabilities (93.3 points below standard, Red, declined 5.0 points) represent the lowest-performing groups in ELA.

In Mathematics, our student group performance reflects declines across groups. African American students (91.1 points below standard, Orange, declined 9.8 points), Hispanic students (85.0 points below standard, Orange, declined 9.8 points), and Socioeconomically Disadvantaged students (89.0 points below standard, Orange, declined 9.5 points) all remain significantly below standard. Additionally, English Learners (109.6 points below standard, Red, declined 6.3 points), Long-Term English Learners (135.4 points below standard, Red, declined 6.7 points), and Students with Disabilities (144.3 points below standard, Red, declined 7.7 points) represent the lowest-performing student groups in mathematics.

In response to identified disparities in student outcomes across English Language Arts and Mathematics, particularly for English Learners, Black students, Hispanic students, and Students with Disabilities, the school has strengthened a comprehensive system of aligned instruction, targeted intervention, and data-driven decision-making. In ELA, this includes the continued implementation of rigorous, standards-aligned curriculum supported by ongoing coaching cycles focused on academic discourse, reading strategies, and scaffolding for diverse learners. Schoolwide literacy strategies and designated ELD instruction have been refined to build students' language proficiency across listening, speaking, reading, and writing, while targeted small group interventions, tutoring partnerships, and push-in supports ensure that students receive differentiated instruction aligned to their needs. These efforts are reinforced through consistent use of iReady diagnostics, interim assessments, and structured data analysis cycles, with a focus on subgroup performance to drive instructional adjustments.

In Mathematics, the school has maintained a strong focus on equitable access to grade-level content through the implementation of Illustrative Mathematics, aligned lesson planning protocols, and structured coaching cycles centered on discourse, representation, and conceptual understanding. Targeted supports, including small group intervention, co-teaching models, and partnerships with organizations such as MathTrust, are designed to address persistent gaps for English Learners, Students with Disabilities, and historically underserved

student groups. Ongoing data monitoring, including iReady and subgroup-specific analysis, ensures that instructional and intervention strategies are responsive and targeted.

Learning Recovery and Emergency Block Grant: Bright Star has unexpended LREBG funds for the 2026-27 school year. LREBG funded actions may be found in Goal 2, Action 2. See action descriptions for an explanation of the rationale for choosing the selected actions.

## Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

# Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers, School Personnel, and Administrators	<ul style="list-style-type: none"> <li>• Received LCAP progress updates throughout the year via School Site Council/English Learner Advisory Committee Meetings</li> <li>• Given the opportunity to provide feedback on 26-27 LCAP goals during spring School Site Council/English Learner Advisory Committee meetings</li> <li>• The principal shared and collected feedback on LCAP goals during a staff meeting, then grade level leaders further discussed the targets in their corresponding leadership meeting.</li> <li>• Values Waypoint: Midyear meeting with network leadership and school site staff to hear feedback about school initiatives and direction of school operations. Identify glows and grows of the year</li> <li>• Fall &amp; Spring staff Pulse survey with questions about communication, relationship with manager and School Leadership team as well as 2 open-ended responses.</li> <li>• Following testing cycles, all staff come together to analyze data. Teachers conduct monthly department data analysis meetings and identify student support systems aligned to data.</li> </ul>
Principal	<ul style="list-style-type: none"> <li>• Drafted LCAP targets and conducted feedback sessions with the School Site Council, staff and families.</li> </ul>

Educational Partner(s)	Process for Engagement
	<ul style="list-style-type: none"> <li>• Drafted LCAP actions proposing what the school should start, stop and continue doing in order to meet articulated LCAP targets. Presented these suggestions to the School Site Council for feedback.</li> <li>• Finalized LCAP targets based on school constituent feedback.</li> <li>• Work in consultation with Bright Star Schools' Chief Business Officer to update the school budget in alignment with school LCAP goals and actions.</li> <li>• Lead coaching sessions with individual teachers.</li> </ul>
Parents	<ul style="list-style-type: none"> <li>• Received LCAP progress updates throughout the year via School Site Council/English Learner Advisory Committee Meetings</li> <li>• Given the opportunity to provide feedback on 26-27 LCAP goals during spring School Site Council/English Learner Advisory Committee meetings</li> <li>• School climate annual Family survey which asks about School Fit, School Safety, School Climate and Family Engagement.</li> <li>• During fall family conferences, homeroom teachers meet individually with families to review student i-Ready assessment data and discuss academic progress, strengths, and areas for growth. These data conversations help families better understand individual student performance and support goal-setting for continued academic improvement.</li> </ul>
Students	<ul style="list-style-type: none"> <li>• SMCA student council members worked with the principal to share schools successes and opportunities for growth</li> <li>• Provided feedback via a student surveys (Panorama Climate &amp; SEL) on their feelings of school culture, belonging and safety</li> <li>• Received LCAP progress updates throughout the year via School Site Council Meetings</li> <li>• Student representatives on the School Site Council were given the opportunity to provide feedback on 26-27 LCAP goals during spring School Site Council meetings</li> </ul>

Educational Partner(s)	Process for Engagement
District Authorizer	- Provides feedback annually on completed LCAP

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Bright Star Schools values the ongoing engagement of educational partners as an essential component of the Local Control and Accountability Plan (LCAP) development process. Throughout the year, the school gathered input from students, families, staff, school leaders, and community partners through surveys, meetings, data reviews, family conferences, and educational partner engagement sessions. Feedback from educational partners, combined with analysis of student achievement, school climate, attendance, and college and career readiness data, directly informed our planning for 2026-2027. Overall feedback from educational partners was positive, as reflected in stakeholder survey results that highlighted strong satisfaction with school culture, academic supports, communication, and student learning experiences.

- 96% of parents rated the school positively
- 93% of staff who rate positively the question "I understand how my role and my department contributes to the larger mission and vision of Bright Star Schools"
- 53% of students who feel safe at school
- 45% of students who feel like they belong at school (6 percentage point growth from baseline)

The primary themes identified through educational partner feedback included maintaining safe and supportive school environments, improving student attendance and engagement, and expanding enrichment and extracurricular opportunities for students; as a result, the following updates will be made or 26-27:

Goal 2:

Stella Middle will continue strengthening proactive student behavior systems through earlier intervention and stronger family collaboration practices. This includes expanded implementation of behavior agreements in which school staff meet with students and families early in the year to establish expectations, identify areas of need, and collaboratively develop support plans designed to strengthen student success and belonging.

The school will also deepen partnerships with external organizations to provide expanded wraparound supports through boys' and girls' groups focused on identity development, leadership, social-emotional wellness, and relationship-building. These programs will include individualized intake meetings with students and families, weekly student support sessions, and ongoing family engagement to address identified needs collaboratively.

Additionally, the school will strengthen its afterschool programming through its partnership with Woodcraft Rangers and implementation of Playworks strategies designed to create safer, more inclusive, and more structured play during recess and lunch. These efforts will include student leadership opportunities, organized play stations, and structured activities intended to improve school connectedness, safety, and positive peer interactions throughout the school day.

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
1	All students demonstrate increased academic growth as measured by state test scores in Math and ELA, improved English proficiency, and iReady	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)  
 Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Increasing academic outcomes for our students will always be the core focus of the school. Therefore, establishing a goal measuring student's academic outcomes is critical. Additionally, according to 22-23 CAASPP data, which serves as our baseline for the 24-27 LCAP cycle, the school has a distance from standard of -39.4 in ELA and -99.2 in Math.

## Measuring and Reporting Results

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During the 2025–26 school year, all actions identified under Goal 1 were carried out as intended, with full implementation across each area and no substantive differences between planned and actual execution. The school maintained coherence between its strategic priorities and instructional practices, ensuring that key systems and supports were consistently delivered to students.

Staffing structures remained stable and aligned to program goals. General education classrooms were staffed with appropriately credentialed teachers, supporting consistent core instruction across grade levels. During the 25-26 school year, we also hired a new middle school

Assistant Principal along with a new Dean of Restorative Practices. Services for students with disabilities were implemented as designed, including access to inclusive education teachers, school psychologists, and required direct services. English Learner supports were also delivered as planned, with designated personnel and aligned curriculum supporting language acquisition and access to grade-level content.

Instructional programs continued to be supported through the use of adopted curriculum and the provision of necessary materials and supplies. Classrooms were equipped with standards-aligned resources, allowing teachers to effectively implement lessons and provide differentiated learning experiences. Academic software and digital tools were also utilized to support instruction, assessment, and progress monitoring.

Intervention systems were implemented to provide additional support for students requiring targeted assistance. Site-based staff coordinated intervention services, with a focus on English Learners and students with disabilities, ensuring alignment between identified student needs and instructional supports. These efforts were reinforced through regular data review and the use of assessment tools to inform instructional adjustments. The SDC program at SMCA launched during the 24-25 School Year. The SMCA SDC classroom served grades 6-8 during the 25-26 school year divided by content areas. We have two content expert teachers - 1 Reading & Writing teacher and 1 Science and History teacher. While some students are enrolled in the SDC class for the duration of the day, other students may be mainstreamed for other courses depending on their performance and data. Since the program's inception, our students have made significant growth within the program. During the 26-27 SY, SMCA plans to expand their SLD SDC to grades 5th-8th to serve more students.

Ongoing professional learning and instructional support structures were also maintained throughout the year. Teachers engaged in professional development opportunities, and instructional leadership roles, including grade level leads, content leads, and support staff, played an active role in strengthening classroom instruction and supporting student learning. These efforts contributed to a more cohesive instructional program and increased support for unduplicated student group.

In summary, the consistent implementation of all Goal 1 actions established a strong operational foundation during the 2025–26 school year. This level of fidelity supports continued efforts to refine instructional practices and improve outcomes for all students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences between budgeted and estimated actuals.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The effectiveness of the actions under Goal 1 has been mixed, with notable strengths in English Learner progress and Science achievement, alongside continued opportunities for improvement in English Language Arts (ELA) and Mathematics outcomes for key student groups.

The strongest evidence of effectiveness is seen in English Learner outcomes. According to the 2025 CA School Dashboard, Stella Middle Charter Academy achieved a Green performance level on the English Learner Progress Indicator (ELPI), with 56.0% of English Learners

making progress, an increase of 5.5 percentage points. Additionally, Long-Term English Learners (LTELs) demonstrated particularly strong outcomes, performing at the Blue level with 74.1% making progress, increasing by 24.1 percentage points. This growth reflects the effectiveness of targeted English Learner supports (Action 4), including dedicated personnel, curriculum, and increased focus on differentiated instruction and progress monitoring. Similarly, improvements in the Reclassification (RFEP) rate from 16.07% at baseline to 19.05% in Year 2 indicate positive movement toward English proficiency and successful language acquisition systems.

Science achievement, as measured by CAST, also demonstrates progress. The percentage of students meeting or exceeding standards increased from 11.27% at baseline to 22.33% in Year 2, reflecting growth across several student groups, including Students with Disabilities (14.7%), Socioeconomically Disadvantaged students (22.45%), and Hispanic/Latino students (24.24%). This suggests that curriculum implementation and instructional supports (Actions 3, 5, and 7) are contributing to improved outcomes in science.

ELA outcomes indicate that current actions have not yet fully resulted in improved academic performance. The Dashboard shows that All Students remain at the Orange performance level, 26.6 points below standard, declining by 6.0 points. This trend is consistent across student groups, with English Learners declining 6.8 points, Hispanic students declining 8.0 points, and Socioeconomically Disadvantaged students declining 6.4 points. The most significant opportunities for growth are with our Long-Term English Learners and Students with Disabilities, who are in the Red performance level at 70.1 points below standard (maintained) and 93.3 points below standard (declined 5.0 points), respectively. These results suggest that while core instruction, curriculum, and intervention systems (Actions 1, 3, 6, and 8) are in place, they have not yet been effective in accelerating literacy outcomes for our highest-need student groups. To address the outcomes in ELA for our significant student groups, we have strengthened a comprehensive system of aligned instruction, intervention, and coaching. This includes consistent coaching cycles focused on rigorous Tier 1 instruction and language development strategies, expanded designated ELD and small group interventions, and targeted supports such as push-in services and external tutoring partnerships. These efforts are reinforced through ongoing data-driven practices, including i-Ready diagnostics, IAB/FIAB analysis, and subgroup-focused data cycles, to ensure instruction is continuously adjusted to meet the specific literacy needs of students.

A similar pattern is evident in Mathematics, where performance remains an area of need. All Students are at the Orange level, 87.9 points below standard, declining by 10.2 points. Student group data also reflects small declines, particularly for English Learners (109.6 points below standard, declined 6.3 points), Long-Term English Learners (135.4 points below standard, declined 6.7 points), and Students with Disabilities (144.3 points below standard, declined 7.7 points), all in the Red performance level. To address math achievement gaps for our significant student groups, with an emphasis on our student groups currently performing in the Red performance level, the school has strengthened a comprehensive system of rigorous core instruction, coaching, and targeted intervention. This includes consistent implementation of standards-aligned curriculum, ongoing coaching cycles (Weekly and bi weekly observations and coaching meetings) focused on mathematical discourse and scaffolding, and expanded co-teaching and small group supports to ensure access for all learners. These efforts are reinforced through data-driven practices, including i-Ready diagnostics and subgroup-focused analysis, to continuously monitor progress and adjust instruction to meet the specific needs of student groups.

In summary, Actions 4 (English Learner supports) and elements of Actions 3 and 5 (curriculum and instructional materials) have been effective in improving English language proficiency and science outcomes. However, Actions 1, 2, 6, and 8, focused on core instruction, special education supports, intervention systems, and supplemental instructional support, are an opportunity to strengthen as we head into year 3 of our 3-year LCAP cycle to ensure we have improved outcomes for ELA and Math.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflection on current year implementation and engagement with our educational partners, we will largely continue with the current strategies outlined in Goal 1. We are encouraged by the progress we have seen and believe that maintaining consistency in our approach will support continued growth toward our three-year targets in academic achievement for all students.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
1.1	General Education Teachers	Employment of general education teachers at the school	\$2,750,000.00	No
1.2	Special Education Services and Personnel	<p>Services to support Inclusive Education students, including but not limited to: School Psychologists, Inclusive Education Teachers and direct special education services.</p> <p>Collaboration among staff and special education services to ensure supports are targeted in Chronic Absenteeism, ELA and Math to ensure our students with disabilities make progress on and exit the Red performance level as reported in the 2023 CA School Dashboard.</p>	\$1,913,671.00	No
1.3	Curriculum	Curriculum used to support academic achievement	\$25,000.00	No
1.4	English Learner Curriculum and Personnel	<p>English Learner personnel and curriculum used to support English Learners.</p> <p>Provide targeted intervention and instructional support for Long-Term English Learners (LTELs) through progress monitoring and differentiated instruction to accelerate language acquisition and academic success.</p>	\$340,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.5	Instructional Materials	Instructional materials, including but not limited to: books, novels, manipulatives, musical instruments, library supplies, and general student supplies	\$75,000.00	No
1.6	Intervention for High Needs Students	School administrator who coordinates intervention programming, focusing specifically on Inclusive Education students and English Learners	\$270,000.00	Yes
1.7	Software - Academic Achievement	Software used to support academic achievement	\$20,000.00	No
1.8	Supplemental Instructional Support	<p>Personnel and non-personnel items, including but not limited to: professional development, administrators, teaching assistants, grade level chairs, content leads and mentors. These personnel and services support teachers in providing targeted instruction for students with unique needs such as foster youth, low-income students, and English learners.</p> <p>Additional focus, targeted intervention, and progress monitoring for our All Students, EL, and Socioeconomically Disadvantaged Students who reported a Red on the 2023 CA School Dashboard in Math</p>	\$1,325,000.00	Yes

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
2	School promotes a school culture which is positive, engaging, calm and supportive for both student social and emotional development, and actively engages and involves families in their students' learning.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement) Priority 5: Pupil Engagement (Engagement) Priority 6: School Climate (Engagement)
---

An explanation of why the LEA has developed this goal.

This goal was intended to capture the schools commitment to providing a nurturing, joyful, and safe learning environment for all students. Within this goal the school measures school climate, incidents of suspension and chronic absenteeism. We know that a student having fun, and feeling valued and safe will allow them to learn and excel. The school sees parents as partners and advocates for their students. As such this goal measures the degree to which the school is able to engage families in a variety of school related activities. The goal also assesses how families feel about the school their student attends.

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During the 2025–26 school year, all actions identified under Goal 2 were implemented as planned, with no substantive differences between the intended design and actual execution. The school maintained a consistent focus on fostering a positive, engaging, and supportive school culture while strengthening family engagement systems to ensure all students, particularly those in unduplicated student groups, had access to the social-emotional and community-based supports necessary for success.

Enrichment programming was implemented as intended, providing students with access to expanded learning opportunities beyond the core academic program. These included afterschool programming, Life Experience Lessons such as overnight field trips, and wellness-focused opportunities for both students and families. These experiences were designed to broaden student exposure to cultural and real-world learning opportunities and were particularly impactful for our significant student groups.

Student and family support structures were fully implemented through the coordination of counseling services, restorative practices, and student culture systems. School counseling staff, Deans of Student Affairs/Culture, and office support personnel worked collaboratively to provide students with consistent access to trusted adults who could support both academic and social-emotional needs. In alignment with Learning Recovery Emergency Block Grant (LREBG) priorities, the school also expanded its capacity to support student wellness and mental health through increased counseling services and related supports. These efforts were aligned to identified needs in school climate data, including suspension and attendance trends, and were supported by ongoing monitoring of key metrics such as suspension rates, chronic absenteeism, and student survey data.

Technology systems supporting school culture were also implemented as planned, including platforms used to monitor attendance, behavior, and social-emotional data. These tools enabled staff to track trends, respond proactively to student needs, and support a more data-informed approach to school climate and engagement.

Student activities and school-wide events were carried out as intended, contributing to a positive and inclusive school environment. These activities provided opportunities for student recognition, celebration, and community-building, reinforcing a strong sense of belonging among students.

Finally, our athletic programs were implemented as planned, offering students access to competitive sports and physical education. Athletics continued to serve as a vital outlet for student motivation, health, and teamwork, while also reinforcing a sense of belonging and school spirit.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences between budgeted and estimated actuals.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions implemented under Goal 2 have contributed to a strong and evolving school culture that prioritizes student belonging, wellness, and leadership, while also strengthening systems for family engagement and support. Through enrichment opportunities, expanded student services, and a fully integrated Community School model, the school continues to build a holistic environment centered on access, connection, and student voice.

In terms of student engagement and culture, the school demonstrated strength in maintaining a safe environment with low suspension rates, while also identifying chronic absenteeism as a key area for continued growth:

Suspension Rate: 0.8% (Yellow, increased slightly but remains well below the state average of 2.9%)

Chronic Absenteeism: 21.9%

Expulsion Rate: 0.2% (1 student)

53% of students who feel safe at school

45% of students who feel like they belong at school

The relatively low suspension rate reflects the effectiveness of Action 2 (Student and Family Services Personnel) and the school's continued emphasis on restorative practices, counseling supports, and proactive behavior systems. These systems are embedded within a broader Multi-Tiered System of Supports (MTSS), ensuring students have access to responsive interventions and consistent adult support.

In response to chronic absenteeism, which increased to a Red performance indicator on the 2025 CA School Dashboard, the school has strengthened systems for early identification and intervention, reflecting focused implementation of Action 3 (School Culture Software) and attendance-related MTSS practices. Attendance is closely monitored through consistent tracking of unexcused absences, same-day family communication, and regular attendance team meetings. The school has also implemented targeted incentives and engagement strategies, such as hosting events on "Dip Days" and leveraging attendance dashboards to identify trends and respond proactively. These efforts demonstrate a strong foundation of systems and practices designed to improve attendance outcomes.

While these systems are showing promise, chronic absenteeism remains an area for continued growth, particularly given the increase across multiple student groups. The school has already identified opportunities to strengthen early-year attendance systems and continue refining interventions to better meet student needs. Additionally, anticipated staffing shifts, including changes in counseling and attendance team capacity, highlight the importance of maintaining and adapting these systems to ensure continued effectiveness.

A significant strength this year has been the school's Community School model, now in its third year of implementation. Through the leadership of a full-time Community School Manager, the school has expanded access to resources and strengthened partnerships that directly support student well-being. Events such as the Winter Festival, which welcomed over 450 attendees, and partnerships with organizations like Vision To Learn (who provided eye exams and glasses to students) and GUMP Nation Foundation have provided students and families with critical services, mentorship opportunities, and community-based supports. These efforts reflect strong implementation of Action 1 (Enrichment Programming) and have contributed to a greater sense of connection and belonging across the school community.

The school has also made meaningful progress in elevating student voice and leadership opportunities. The expansion of the WEB Crew program from 20 to 43 student leaders, along with active Student Council and affinity groups, has strengthened peer mentorship, student agency, and school connectedness. These structures ensure that students are not only engaged participants, but active contributors to shaping school culture.

Additionally, the continued implementation of Compass (SEL circle practices) has remained a bright spot. Staff training and ongoing feedback cycles have strengthened the quality of circle facilitation, with many educators deepening their practice from foundational to more advanced implementation levels. This has supported stronger relationships among students and staff and reinforced a consistent, community-centered culture across classrooms.

Family engagement efforts continue to be supported through Actions 5–7, with data reflecting both strengths in overall family perception and opportunities to increase participation in specific events. The school achieved 96% positive parent ratings, an increase from 95%, demonstrating strong overall satisfaction with the school environment. However, parent survey participation declined to 57%, indicating an opportunity to re-engage families in feedback processes.

Event participation data shows mixed results, with Back to School Night attendance at 39.72% (slightly below prior levels) and parent-teacher conference participation at 63.83%, reflecting continued family engagement in academic progress discussions. Participation in parent education workshops increased to 21.15%, up from 18%, demonstrating growing interest in family learning opportunities. Additionally, 50.40% of families attended at least two school events, indicating that many families remain connected to the school community across multiple touchpoints.

These outcomes reflect the continued implementation of Action 5 (Family Engagement Coordinator) and Action 6 (ParentSquare), which ensure consistent, accessible communication, as well as Action 7 (Family Engagement Events and Materials), which supports a wide range of opportunities for families to engage. When paired with the school's Community School model, including large-scale events like the Winter Festival and ongoing partnerships providing resources and services, these efforts demonstrate a strong foundation for family engagement. Moving forward, the school will focus on increasing participation consistency across events and strengthening survey engagement to ensure all family voices are represented.

Overall, the actions under Goal 2 have been effective in fostering a positive, inclusive, and student-centered school culture, with notable strengths in community partnerships, student leadership, and behavior systems. Continued focus on strengthening attendance systems and sustaining staffing structures will further enhance the school’s ability to support consistent student engagement and well-being.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflection of Year 2 implementation, review of outcome data, and engagement with educational partners, the school will not be making any significant changes to Goal 2, including the overall goal, major actions, or intended areas of focus for the 2026–27 school year. Current actions and systems continue to demonstrate effectiveness in supporting student engagement, school culture, student safety, and family partnership, and the school remains committed to sustaining and refining these efforts as part of the final year of the current three-year LCAP cycle.

However, the school will make minor updates to select actions in order to strengthen alignment to identified student needs and continue improving outcomes for all students, particularly in areas related to attendance, family engagement, and social-emotional supports.

- Stella Middle will continue strengthening proactive student behavior systems through earlier intervention and stronger family collaboration practices. This includes expanded implementation of behavior agreements in which school staff meet with students and families early in the year to establish expectations, identify areas of need, and collaboratively develop support plans designed to strengthen student success and belonging.
- The school will also deepen partnerships with external organizations to provide expanded wraparound supports through boys’ and girls’ groups focused on identity development, leadership, social-emotional wellness, and relationship-building. These programs will include individualized intake meetings with students and families, weekly student support sessions, and ongoing family engagement to address identified needs collaboratively.
- Additionally, the school will strengthen its afterschool programming through its partnership with Woodcraft Rangers and implementation of Playworks strategies designed to create safer, more inclusive, and more structured play during recess and lunch. These efforts will include student leadership opportunities, organized play stations, and structured activities intended to improve school connectedness, safety, and positive peer interactions throughout the school day.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Enrichment Programming	Unique experiences provided to the school community including: wellness classes for staff and families, Life Experience Lessons (local & overnight	\$625,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>field trips), and afterschool programming, supplementing the core educational program with additional life and cultural experiences that some of our student may not otherwise be able to access, particularly socio-economically disadvantaged students, foster youth, homeless youth, and English learners.</p>		
2.2	Student and Family Services Personnel	<p>School counseling program, restorative justice staff, office support staff and Dean of Restorative Practices, ensuring students have access to adults who can help them navigate academic and social challenges. Foster youth, low income students and English learners specifically benefit from these additional support structures to navigate the school environment, ensuring they have the resources necessary to excel.</p> <p>To address chronic absenteeism among our significant student groups of English Learners who scored red on the 2023 CA School Dashboard, the school counseling program, restorative justice staff, office support staff, and Dean of Restorative Practices will prioritize targeted interventions, including attendance support plans and restorative practices to address barriers to attendance.</p> <p>We will utilize Learning Recovery Emergency Block Grant (LREBG) funds to expand student support services that promote social-emotional wellness and mental health by increasing capacity within our counseling and student support teams. This may include the addition of counseling interns, contracted mental health providers, or other personnel and resources that enhance our ability to meet the academic, behavioral, and emotional needs of students.</p> <p>Our needs assessment identified social-emotional wellness and behavior management as high-priority areas for improvement, particularly for our significant student groups. Data from our school climate surveys and suspension rates from the CA School Dashboard show disproportionate impacts on these groups, reinforcing the urgency to invest in counseling and mental health infrastructure. The metrics used to monitor this action will include:</p> <ul style="list-style-type: none"> <li>- Suspension rate (by subgroup)</li> </ul>	\$707,130.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> <li>- Chronic absenteeism rate (by subgroup)</li> <li>- Student culture survey results (SEL and safety domains)</li> </ul> <p>This action aligns with the allowable LREBG use under EC Section 32526(c)(2)(F): “Integrating evidence-based pupil supports to address other barriers to learning, and staff supports and training, such as the provision of health, counseling, or mental health services...or programs to address pupil trauma and social-emotional learning.</p>		
<b>2.3</b>	Software - School Culture	Software related to school climate, attendance, student behavior, and social emotional learning including but not limited to survey tools.	\$5,000.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
3	School facilities are in good repair, instructional staff are properly credentialed, and students are receiving standards aligned instruction.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

We know that in order to have an effective school we must operationally meet specific standards. Our teachers must be credentialed, our school facilities up to date and safe, and all instructional materials aligned to common core standards. If we are not able to meet these basic operational expectations, we will not be able to operate an effective educational program.

## Measuring and Reporting Results

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Overall, the actions under Goal 3 were implemented as planned, with no substantive differences between the intended design and actual execution. The school maintained a consistent focus on ensuring that facilities remained safe and in good repair, operational systems functioned effectively, and students had access to properly credentialed staff and standards-aligned instruction.

Key operational systems were implemented with fidelity, including the provision of operational materials (Action 3.1) and software systems (Action 3.3) to support daily school functions. These resources ensured that staff had the necessary tools to effectively manage instruction, communication, and school operations. In addition, operational personnel and services (Action 3.2) were in place to maintain a safe and

supportive learning environment, including custodial services, facilities maintenance, and oversight of school operations. Broader operational services (Action 3.4), such as legal, audit, and compliance-related supports, were also implemented as planned, contributing to overall organizational stability and accountability.

A key success of implementation was the school's ability to maintain safe, functional facilities and consistent operational systems, which supported uninterrupted instruction and a stable learning environment for students and staff. These systems ensured that classrooms remained conducive to learning and that staff were able to focus on delivering high-quality, standards-aligned instruction.

While implementation was strong overall, ongoing attention is required to maintain and continuously improve facilities, operational efficiency, and staffing stability to meet the evolving needs of the school community. Continued investment in these foundational systems will ensure that the school remains well-positioned to support student learning and staff effectiveness.

In summary, Goal 3 actions were fully implemented with fidelity, resulting in stable operations, safe facilities, and the infrastructure necessary to support high-quality instruction. These efforts provide a strong foundation for continued success in delivering standards-aligned educational programs for all students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences between budgeted and estimated expenditures.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions implemented under Goal 3 have been effective in maintaining safe, functional, and well-maintained school environments while ensuring students continue to receive standards-aligned instruction from appropriately credentialed staff. Through operational services, facilities maintenance, staffing supports, and technology systems, the school has maintained strong systems that support both daily operations and student learning.

During the 2025–26 school year, all monitored Bright Star schools were found to have sufficient standards-aligned instructional materials available for all students through the Williams monitoring process. Facilities and Safety Inspection scores ranged from 94.53% to 100%, reflecting ratings of Good to Exemplary. This reflects the effectiveness of Actions 1-4, including operational materials, facilities personnel and services, software systems, and contracted operational supports. These actions ensured that school facilities remained clean, safe, and conducive to learning throughout the school year. Custodial services, maintenance supports, operational supplies, and ongoing compliance monitoring contributed to maintaining a positive and secure learning environment for students and staff.

Operational and technology systems also continued to effectively support school functionality and organizational efficiency. Through Action 3 (Software – Operations), staff maintained access to operational platforms and cloud-based systems that support communication, compliance, instructional access, and daily school operations. In addition, operational services provided under Action 4 (Operational Services) ensured

continuity in critical functions such as payroll processing, legal and audit compliance, facilities consulting, insurance coverage, and district oversight requirements.

In terms of instructional quality, the school maintained strong implementation of standards-aligned instructional materials and curriculum. 100% of instructional materials were verified as aligned to California State Standards, and 100% of students had access to standards-aligned instructional materials both at school and at home. English Learners also continued to receive instruction aligned to both CCSS and ELD standards, supported through ongoing professional development, curriculum vetting, and instructional coaching structures.

Credentialing and staffing stability also remained areas of effectiveness. According to the most recent SARC data, the school had 2.2 teachers identified as ineffective under ESSA and 0 teachers assigned out-of-field. Staffing and credentialing are monitored regularly to ensure compliance and to support students with appropriately credentialed teachers in all classrooms.

The school also continued to prioritize staff well-being and organizational alignment. Based on staff survey results, 73% of staff reported feeling their workplace is safe, while 95% indicated they understand how their role contributes to the broader mission and vision of the organization. These results reflect continued efforts to foster a positive work environment, maintain strong operational systems, and support staff collaboration and effectiveness.

Overall, the actions under Goal 3 have been effective in supporting safe school facilities, operational stability, credentialed staffing, and access to standards-aligned instruction. Continued implementation of these actions will help ensure students and staff continue to learn and work in environments that are safe, supportive, and aligned to high expectations for teaching and learning.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on engagement with educational partners and a thorough review of Year 2 outcomes, the school has determined that no substantive changes will be made to the planned goals, metrics, target outcomes, or actions for Year 3 of the three-year LCAP cycle. The current plan continues to reflect the identified needs of the school community, and maintaining consistency will support continued implementation and progress toward established goals.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operational Materials	Operational materials including, but not limited to office supplies, custodial supplies, mileage reimbursements, school hiring costs, non-IT contract labor, legal and audit expenses, and postage	\$100,000.00	No
3.2	Operational Personnel and Services	Personnel and professional services to ensure that the school facilities remains a safe and effective learning environment.	\$425,000.00	No
3.3	Software - Operations	Software to ensure basic operational functionality including but not limited to Microsoft Office and cloud services	\$2,000.00	No
3.4	Operational Services	Operational services including, but not limited to contract labor, general liability insurance, facilities consulting, legal and audit fees, payroll processing, district oversight fees and management fees	\$883,098.00	No

# Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2026-27]

## Required Descriptions

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.6	<p><b>Action:</b> Intervention for High Needs Students</p> <p><b>Need:</b> Unduplicated students—including English Learners, low-income students, foster youth and also students receiving special education services—often require coordinated academic and behavioral supports beyond core instruction.</p>	<p>These actions provide a dedicated school administrator to coordinate intervention programming, with a specific focus on Inclusive Education and English Learner students. The coordinator leads site-level intervention systems, ensures that students are appropriately referred and supported, and works with staff to implement targeted academic and behavioral supports. Although the role is principally directed to meet the needs of unduplicated students, it is implemented schoolwide because effective intervention systems</p>	<p>The following metrics will be used to monitor the effectiveness of these actions.</p> <ol style="list-style-type: none"> <li>1. ### **Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
<b>1.4</b>	<b>Action:</b> English Learner Curriculum and Personnel	This action funds curriculum and personnel specifically designed to meet the unique linguistic and academic needs of English Learners. It	Metric 1.5 English Learner Progress Indicator and 1.6 Reclassification Rates

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p><b>Need:</b> English Learners (ELs) require specialized instructional strategies, dedicated curriculum, and targeted language development supports to access grade-level content and make meaningful progress toward reclassification. Assessment data, ELPI results, and classroom observations reveal persistent gaps in language acquisition and academic achievement for ELs, underscoring the need for designated English Language Development (ELD) time, scaffolded instruction, and dedicated support staff.</p> <p><b>Scope:</b> Limited to Unduplicated Student Group(s)</p>	<p>includes adoption of ELD-aligned curriculum, instructional resources, and staffing. The action is limited in scope because it is principally directed toward English Learners, who have distinct needs that differ from other student populations. By targeting services and curriculum directly to ELs, the LEA ensures that this group receives intensive language instruction and support aligned to state ELD standards. This focused approach enables more effective progress monitoring and instructional alignment, directly advancing EL reclassification and language proficiency goals.</p>	

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

NA all limited actions have expenditures.

### Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The LEA used the additional concentration grant add-on funding it received to re-allocate responsibilities and eliminate other duties amongst staff providing direct services to high-needs students, as well as retain staff providing direct services to high-needs students who are low-income, English learners, and/or foster youth.

<b>Staff-to-student ratios by type of school and concentration of unduplicated students</b>	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	NA Single School LEA	NA Single School LEA
Staff-to-student ratio of certificated staff providing direct services to students	NA Single School LEA	NA Single School LEA

# Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [LCFF@cde.ca.gov](mailto:LCFF@cde.ca.gov).*

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
    - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# Plan Summary

## ***Purpose***

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

## **Requirements and Instructions**

### **General Information**

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### **Reflections: Annual Performance**

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
  - If the LEA has unexpended LREBG funds the LEA must provide the following:
    - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
    - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
      - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
      - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
        - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
      - Actions may be grouped together for purposes of these explanations.
      - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
  - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

### **Reflections: Technical Assistance**

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

## Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

### Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

### Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

### Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

## Engaging Educational Partners

### *Purpose*

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

## Requirements

### *Requirements*

**School districts and COEs:** [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## **Instructions**

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

### Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

### Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

## Goals and Actions

### *Purpose*

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### *Requirements and Instructions*

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

**Requirement to Address the LCFF State Priorities**

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

**Focus Goal(s)**

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### **Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding**

#### **Description**

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
  - (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
  - An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

#### **Type of Goal**

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

### Broad Goal

#### Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

#### Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### **Maintenance of Progress Goal**

#### Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

#### Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

### **Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
  - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> <li>• Enter the metric number.</li> </ul>
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

## Baseline

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
    - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

## Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

## Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

### Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

### Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

## Actions:

Complete the table as follows. Add additional rows as necessary.

### Action #

- Enter the action number.

### Title

- Provide a short title for the action. This title will also appear in the action tables.

### Description

- Provide a brief description of the action.
  - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
  - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

### Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

### Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

## Required Actions

### For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
  - Professional development for teachers.
  - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

### For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

### For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

### For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### ***Purpose***

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

### **Statutory Requirements**

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

**LEA-wide and Schoolwide Actions**

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**For School Districts Only**

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Requirements and Instructions**

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

**Projected Additional 15 percent LCFF Concentration Grant**

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year**

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**LCFF Carryover — Percentage**

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar**

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

**Total Percentage to Increase or Improve Services for the Coming School Year**

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**Required Descriptions:**

**LEA-wide and Schoolwide Actions**

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis**

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

**Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

## Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

### ***Total Planned Expenditures Table***

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
  - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## ***Contributing Actions Table***

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## ***Annual Update Table***

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## ***Contributing Actions Annual Update Table***

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## ***LCFF Carryover Table***

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## ***Calculations in the Action Tables***

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### **Contributing Actions Table**

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### **Contributing Actions Annual Update Table**

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

## **LCFF Carryover Table**

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
